

POLE & BOLLARD

The Future of Light.

FONELIGHT MEDIA

OUR VALUES

At Fonelight, every product is shaped by a strong design philosophy, meticulous production standards, and a commitment to exceptional user experience. We see light not merely as illumination, but as a design element that defines and elevates the character of every space.

Innovation

We continuously refine our lighting solutions by following the latest technologies and design trends. Each new product represents a step forward, blending functionality with refined aesthetics.

Reliability

We adhere to uncompromising quality standards to offer long-lasting and durable lighting solutions. The trust our customers place in us is the driving force behind our brand.

Design-Driven Approach

Every product reflects our dedication to detail. While maintaining our minimal, modern, and elegant design language, we always prioritize seamless harmony with the environment.

Customer Focus

We strive to understand needs accurately and deliver solutions that are both aesthetically appealing and functionally effective. The long-term relationships we build with our customers are among the greatest strengths of our brand.

Our History

At FoneLight Technologies, we design and manufacture indoor & outdoor lighting products that turn darkness into a unique visual experience. Our passion is to produce lighting products that create a high prestigious impression and satisfaction in people's lives!

Our product development policy is simple; the more minimal and functional, the better the visual experience.

The power of FoneLight is behind what people expect to see.

We aim to provide FoneLight's modern and smart lighting products all over the globe. While making this vision come true, our main motivation is providing a seamless customer experience.

Vision & Mission

Our Vision

Our vision is to become an international leading lighting product manufacturer designing and producing innovative and smart lighting products that will enlighten all the continents.

Our Mission

Continuous development is the key point for us. Designing the lighting products that people expect in the markets around the globe is a responsibility for our team

A photograph of a modern glass-walled building at dusk. The building's facade is highly reflective, showing the sky and surrounding environment. A prominent feature is a large, cantilevered overhang supported by several thick, light-colored concrete columns. This overhang is illuminated from below by a series of recessed linear lights. In the foreground, a paved plaza with light-colored rectangular tiles and dark linear accents is visible. Several tall, black, modern light poles are positioned around the plaza, each with a horizontal arm that holds a long, thin light fixture. The sky is a deep blue, suggesting twilight. The overall aesthetic is clean, architectural, and contemporary.

POLERA MODEL

FONE | LIGHT[®]

Polera Outdoor Lighting Pole
